Tallinn University of Technology

BASRECCS Network, Horizon 2020 project ENOS

26 September, Nordic Forum Hotel, Tallinn, Estonia

BALTIC EXPERTISE NETWORK ON CCS

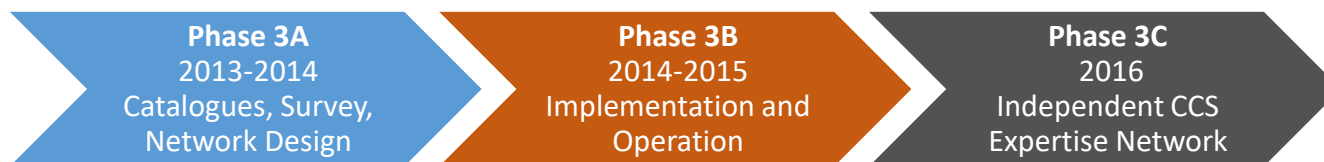

- Baltic Sea Region Energy Cooperation (BASREC) is a ministerial process with a mandate for a three-year period. BASREC is under the umbrella of the [Council of the Baltic Sea States \(CBSS\)](#) and covers the issues of energy and energy-related climate policy in the region.
- The BASREC has taken an initiative to establish a network of and for CCS expertise with the objective of supporting deployment of CCS in the Baltic Sea region. The Network is also supported by Global CCS Institute and in 2015 and now by the Nordic Council of Ministers.

The CCS-initiative from BASREC:

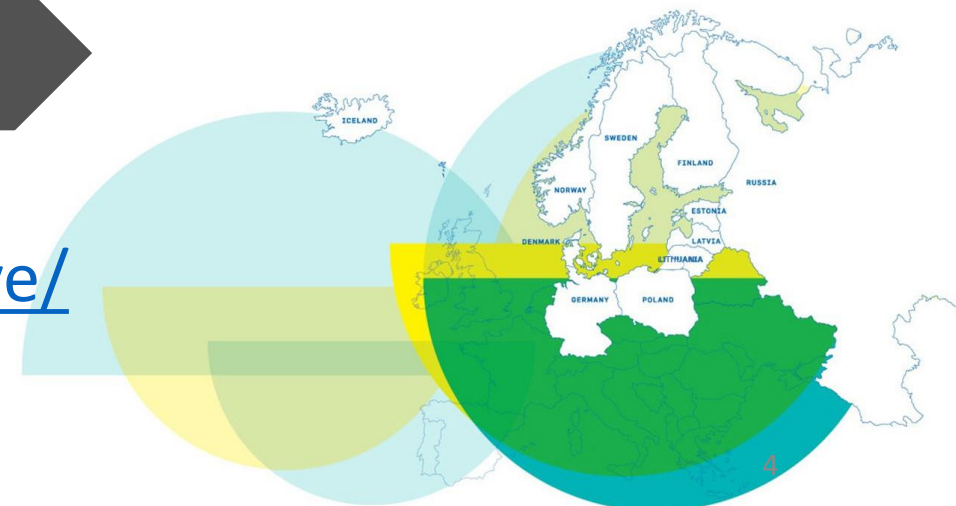

1. A pre-study 2011 on CCS by INSA
2. The BASREC CCS Conference in 2012:

3. The BASREC network initiative on CCS:

4. The BASRECCS network
5. A website: <http://basrec.net/ccs-initiative/>
6. A letter of support

- The objective of BASRECCS is to promote and fast-track the development of a CCS network in the Baltic Sea Region
- The regional CCS network should benefit from an active communication on CCS transport and storage development,
- as well as issues like public perception, environmental impact and legal/fiscal aspects of cross border transfer of CO₂
- Through structured and regular information exchange the Network should support further regional CCS competence development.
- This should assist in the wider assessment of regional CCS initiatives as part of a climate change mitigation action plan in the Baltic Sea Region.

The BASRECCS network BCF:

BCF preparatory meeting
Stockholm, February 3-4, 2014

BCF opening workshop
Stockholm, October 15, 2014

BALTIC CARBON FORUM BCF
Tallinn, April 22-23, 2015

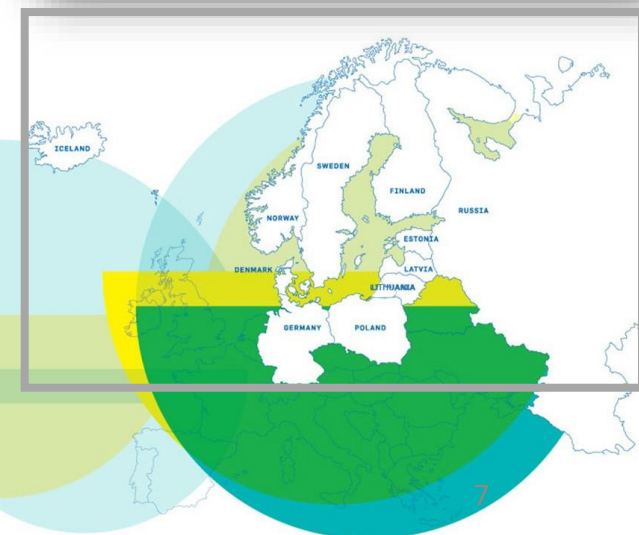

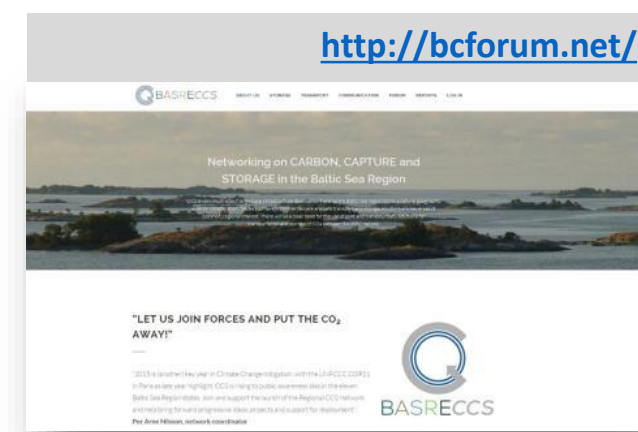

BALTIC CARBON FORUM BCF
Warsaw, October 29-30, 2015

BALTIC CARBON FORUM BCF
Tallinn, September 25-26, 2018

Point of departure:

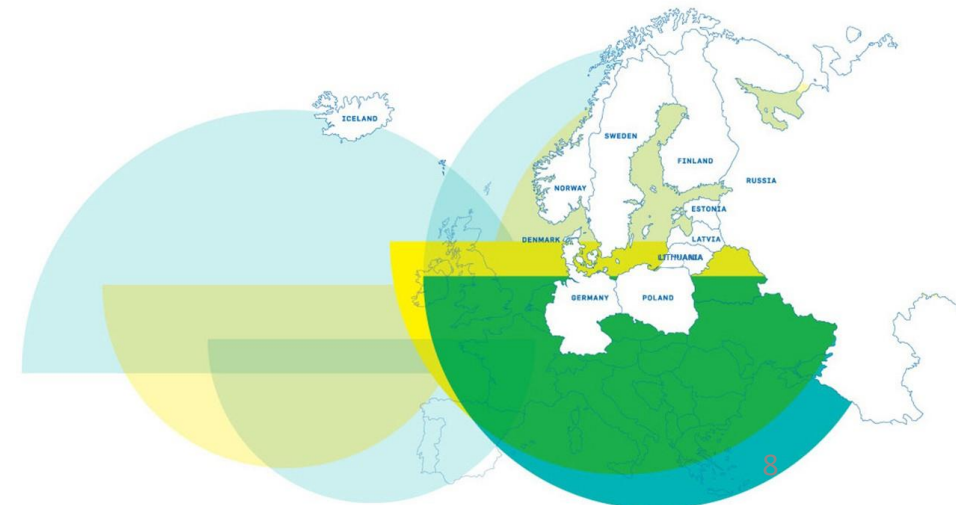

- Initiated by the BASREC eleven ministers of energy, supported by the Nordic Council of Ministers and with a letter of support from BASREC
- The BASRECCS network of experts and stakeholders
- Two websites
- Work done in Task Forces
- Baltic Carbon Forum BCF
- An association
- An increasing demand and future challenges

Why an association r.f.? = registrerad förening (registered association)

- Legal platform
- Fundable
- Transparency
- Continuity
- Operationality

Registration number 221.883 in Finland

- Yesterday at the BASRECCS General Assembly we were informed that BASRECCS was registered in Finland as NGO
- We have chosen new
- BASRECCS Board charmen: Ingvild Ombudstvedt (IOM Law AS from Norway)
- Board members:

Alla Shogenova (Estonia) and Farid Karimi (Finland), Per Arne Nilsson (Sweden)

Secretary

Peter Molander

ENOS
Enabling Onshore CO₂ Storage

Co-funded by
the European Union

- [ENOS](#) is a project supported by EU Horizon 2020 research and innovation programme under grant agreement No 653718 (Enabling Onshore CO₂ Geological Storage in Europe).
- BASRECCS-ENOS workshop is an activity of the
- WP6 of the ENOS project:
- Sharing experience world-wide and seeding storage projects in Europe (task leader Vit Hladik, *Czech Geological Survey*)
- Task 6.2 European liaison and knowledge exchange
